

## **Information Security Policy Statement**

Dynamic Security Services UK Ltd are dedicated to the principle of never ending improvements in service quality, customer satisfaction and protecting the organisation's confidential information.

Our principal aim is to always supply to our customers, highly professional security services that meet or exceed stated or agreed customer requirements. Linked with our principal aim will be company, personnel and customer information that we will strive to protect. We have implemented an Information Security Management System to minimise the risk of confidential information becoming exposed.

Maintenance of securing confidential information is a fundamental consideration during any of our business practices and must not be compromised. We have identified all potential risks, implemented plans to reduce the risk of business information being leaked to unwanted sources and have assigned responsibilities to personnel. At all times, Management and employees are responsible to comply with our Information Security protocol. They are encouraged to provide suggestions and constructive criticism to improve our policies, processes and procedures. This feedback is openly welcomed as it forms an important basis of continual improvement.

We are committed to satisfy all applicable requirements related to information security.

To achieve the aim of this policy, we have set objectives that are established and monitored.
